

BPI

Commercial Printing and
Documentation Services

BPI
IS
HERE

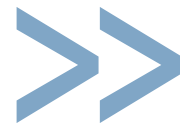

BPI is here.

At BPI, we take our commitment to customer service seriously. We know that delivering quality print and graphic services requires more than just state-of-the-art technology, it requires us to be there with you; in your office, your workstation and in the finished products, helping to meet your deadlines and deliver all your printed materials.

BPI has been helping East Bay companies communicate with their customers nationwide for some time. Our broad range of services—from printing, documentation, graphics and data management—continues to help companies like yours succeed in a highly competitive, highly technological era. We deliver value to your high-impact business communications.

We employ state-of-the-art printing and documentation equipment, the latest graphics applications and prepress services that can handle everything from a full-color brochure, direct mailer, or a tradeshow poster to a detailed software manual or data sheet—all in one location. We are the one resource that delivers complete full-color printing, large-format output, and complete docutech printing solutions that help your business succeed.

Our priority is your success. With our agility, seasoned staff and perpetual energy, we respond to your printing and graphics needs with solutions that deliver. On time. On budget. Without compromising quality. And without sacrificing service.

BPI DocuTech Printing Solutions

BPI understands that your business documents are crucial to your success. In this highly competitive global economy, a document needs to effectively communicate with your customers and support your overall business goals. High-impact manuals, newsletters, and handbooks are key business tools that provide crucial information, instruction, and documentation on your products.

Our DocuTech digital printing systems are state-of-the-art equipment that produce high quality black and white and color pages quickly and affordably. Our Heidelberg Digimaster produces high resolution reproductions up to 1200 dpi. With an array of finishing styles, your documentation will be professional and delivered on time.

BPI DocuTech printing

- >> software and hardware manuals
- >> seminar training manuals
- >> product guides
- >> employee handbooks
- >> newsletters
- >> mailers
- >> presentation materials

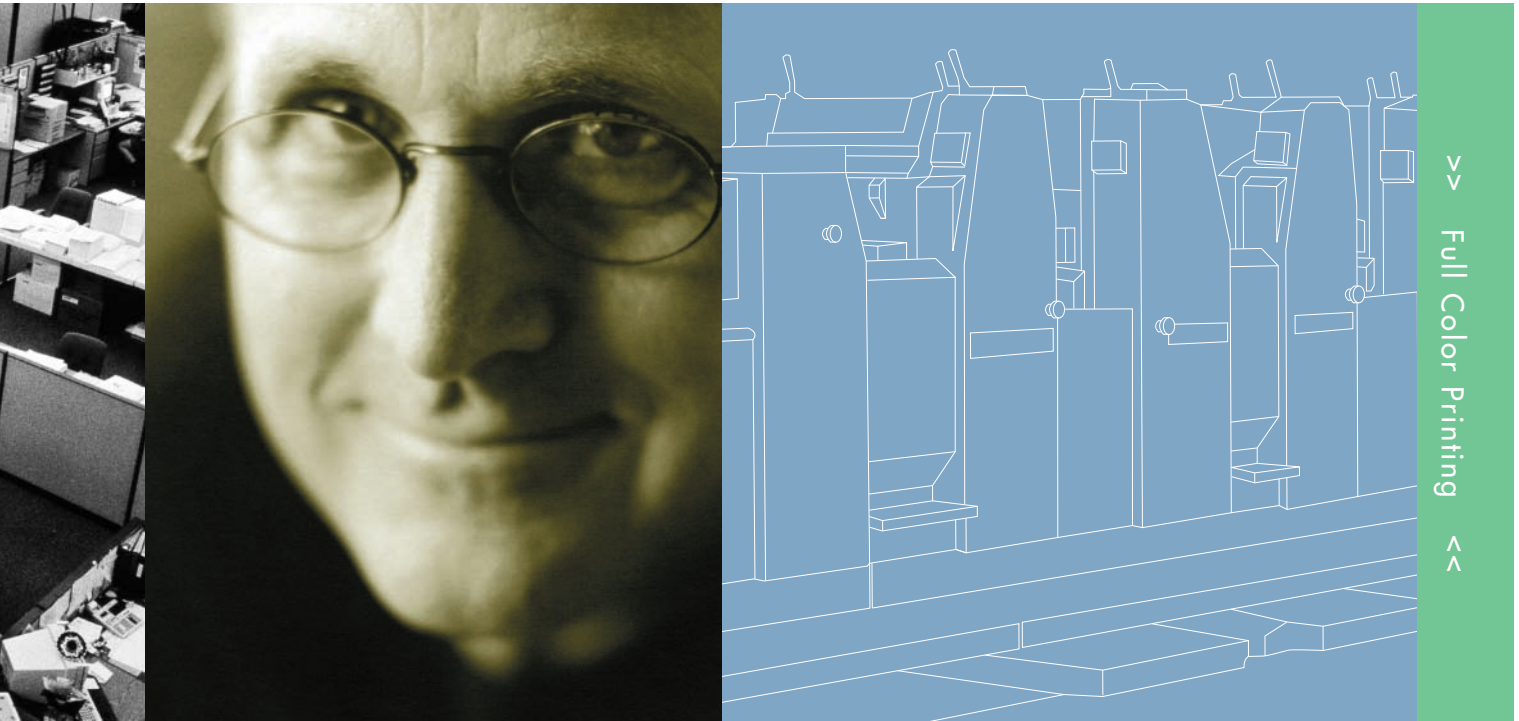

BPI

Full Color Printing Solutions

BPI can help your business meet the print-communication demands of your industry. We offer fast turnarounds on high-quality full-color printing, color scanning, proofing, and file transfer to help you meet those tight deadlines and high standards. And with our knowledgeable sales team and printing operators, we can guarantee that every project turns out as you expect—perfect.

We offer accurate proofing through our state of the art Heidelberg Prinect prepress, as well as the Heidelberg Prosetter direct-to-plate system. At BPI, we can accommodate paper sizes up to 29 inches. In some cases, we can have your project from electronic file to printed piece in 24 hours. And with our affordable pricing, you can ensure you'll meet your budget.

BPI full-color printing

- >> brochures and data sheets
- >> catalogs
- >> presentation folders
- >> direct mail and postcards
- >> business cards and letterheads
- >> product packaging
- >> binders with tabs

BPI Large Format Printing Solutions

BPI knows how important color consistency is when it comes to large-format projects. That's why our large-format printers feature high-resolution (1200 dpi) output, full and consistent color quality capability, and wide support for a variety of substrates using both indoor and outdoor ink systems.

We can provide full-color outputs of up to 60" x 150' on a wide variety of printing materials, with a variety of finishes, such as semi-gloss, semi-matte bond, and tear-resistant bond. We can print on MCS vinyl and banner Tyvek™, as well as fine art canvas and transwhite (backlit) film. And we provide full mounting and lamination capabilities on a wide variety of media, including foamcore, illustration board, and Gator board.

BPI large-format printing

- >> indoor and outdoor banners and posters
- >> window posters and displays
- >> floor graphics
- >> tradeshow booth graphics and signage
- >> point-of-purchase (POP) displays
